Subject: Confirmation for Chair/Speakers for the WGC-2018 ,Singapore

Dear Dr. Nick Kostovic,

I'm writing to follow-up my last invitation as below, would you please give me a tentative reply? Thank you very much. I apologize for the inconvenience if the letter disturbed you more than once.

It is our great pleasure and privilege to welcome you to join the 9thWorld Gene Convention-2018, which will take place in Singapore during November 13-15, 2018. We would like to welcome you to be the chair/speaker in Theme 9 New Biotherapy Discovery while presenting about Cancer....

Under our SAB members' contributions and endeavor, BIT's 8th World Gene Convention-2017 (WGC-2017), successfully held in Macau, China during November 13-15, 2017. Totally, there were nearly 300 world-renowned

experts, professors, laboratory principals, project leaders and representatives of well-known enterprises attended the WGC-2017. Participants from the international enterprises, academic and research institutions enjoyed the three days scientific program. Depending on the warmly support and good suggestions from all of the participants, we are confident in organizing WGC-2018 which would be better and more successful than WGC-2017.

WGC-2018 features a very strong technical program, mainly focused on: breakthroughs in gene, advances genomics & genetics, new research of DNA and RNA, focus on basic research, the frontier research of life sciences, new biotherapy discovery, emerging areas for medicine applications, robust technology development, and cutting-edge Biotechnology. It aims to provide a platform for all experts from academia, industry and national labs to discuss latest hot researches and achievements. Attendees will hear world-class speakers discussing the challenges and opportunities facing the gene, biotechnology and life sciences field. The business & academic experts who are from home and abroad will give excellent speeches.

We expect your precious comments or suggestions; also your reference to other speakers will be highly appreciated. We look forward to receiving your replies on the following questions:

1. What is the title of your speech?
2. Do you have any suggestions about our program?

For more information, please visit the conference website <http://www.bitcongress.com/wgc2018/default.asp>

Singapore, one of most modern countries in Asia, is blessed not only with the best conference facilities but also has exciting attractions to offer; colorful island beaches, family friendly facilities, and etc. We are sure that you will enjoy your stay in Singapore apart from gaining ideas and experience from the conference.

We sincerely wish you can accept our invitation and join us to contribute your invaluable experience and knowledge at this magnificent conference. Look forward to hearing from you soon!

Sincerely yours,

Dear Alina Woods

Please find in attachment file, core of my Center new advanced technology, as well as letter for Investors if you have wiling and capability to help us. We developed technology, we have knowledge and it is beyond, far beyond of misery in today official so call science in Medicine.

This Conference could be huge opportunity to explain top experts and investors new emerged advanced technology. This is most efficient technology in the world in healing cancer and number of different terminal diseases, and it is based on new discoveries in quantum mechanics in physics, quantum in biology and chemistry, and electromagnetic fields. The World's science in Medicine today is far behind my developed technology, and they are "History by their PhD wrong doing because of their lack of knowledge and lack of proper technology".

I did crucial mistake 17 years ago to move to USA because of their official Institutes as FDA and NIH criminal corruption and greed are huge obstacle to help and rescue the lives of the millions of US patients. They FDA and NIH top elite PhD experts are providing extermination of millions of US

patients yearly by horrible torture, in exchange to keep their criminal privilege, greed and benefits. Unfortunately these NIH and FDA top experts PhD are well connected and enjoy benefits of US Organized Crime as well as International Organized Crime.

The true will emerge in near future and US public will find out this!

I am looking for to move out from US to any civilized and normal Country where I will find powerfully Investors and help millions of patients affected with cancer.

I appreciate your help in this matter.

Thank you in advance,

Best regards
